

## TLM-434H

HD&SD 4.3-Inch 16:9 & 4:3 TFT LCD MONITOR BANK

Built within a robust steel and aluminium 19-inch rack mountable design, this bank of both HD & SD 4.3-inches (16:9 and 4:3) high quality TFT LCD monitors are perfect for integration.

Each monitor has individual adjustments for contrast, brightness and colour saturation as well a LED tally light indication.

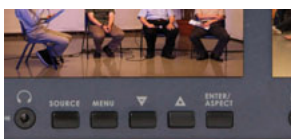

Connection includes HD-SDI, SD-SDI and HDMI Inputs. Embedded audio is supported on both SDI & HDMI, with superimposed on-screen audio and time code indicator.

All four of the SDI inputs include a seamless bypass, ensuring the monitor is an ideal companion for switches. They are also perfect for integration within system racks, OB Van, studios or many more applications.
