

# FOCUS DOLLY LIGHT

## FOCUS DOLLY LIGHT

Based on the proven concept of the Classic Focus Dolly, the new Focus Dolly Light is a complete, lightweight, ultra-portable dolly for track use. It fits together in less than three minutes, and the design incorporates dual features. When closed down, the dolly becomes a portable flight case, the push/pull handle functioning as the transport handle. The dolly track wheels or hard rubber wheels simply pop-in to the sockets of the dolly. The track wheels, which operate on both straight and curved track, are stored inside the dolly case for transportation. Its track wheels operate smoothly on any standard steel or aluminum track such as the Egripment PackTrack. The Focus Dolly Light is the ultimate when you need to act fast.

# FOCUS DOLLY LIGHT

## FOCUS DOLLY PACKAGE

A low cost, lightweight, strong, smooth and safe seat support with adjustable column and seat, which offers an extra dimension to Egripment's famous Focus Dolly Light system. The purpose of the Focus Seat Support is that you can easily mount the Seat Support and Adjustable Column on the Focus Dolly Light, it is very lightweight and performs professionally. A simple "click/lock" system assures an easy and safe way to change the height of the seat and the adjustable camera column in just a few seconds.

The Focus Dolly Light is equipped with extra adaptor plates that serve as supports for the Focus Seat Support. These adaptor plates can also be mounted on existing Classic Focus Dollies that are already around in the world. A set of hard rubber wheels [art 150W] completes the package.

## FOCUS SEAT SUPPORT

The Focus Seat Support completes the Focus Dolly Light as a multipurpose package and can also be used in combination with other Egripment Platform Dollies.
