

QBox Prompt Engine

Key Features

- An intelligent scroll engine that connects to the PC/ laptop via ethernet (wired or wireless), serial or USB and delivers video to the prompter monitor via BNC, VGA or SDI (additional option). Three integrated composite outputs.
- Use for outside broadcasts with no need for a laptop or wires - simply connect to a standard battery belt, load scripts via a bluetooth capable mobile phone or a USB data key, and control using a wireless scroll control.
- The QBox has 1/2 GB storage capacity enabling it to save the latest script or NRCS rundown.
- By adding additional QBoxes to your system you can add further resilience or unlock the additional benefits of the multi-head module (not included)

Included in the package

- QBox prompt engine
- Full 2-year warranty
