## Imagine More

### How to set your TSA LOCK™

The opening combination is preset at **0-0-0** in factory.

#### To reset the opening combination

**Step 1** Turn the dials to the opening combination.

**Step 2** Press down the Reset Button with a pen (or other tools) all the way until you hear the “Click” sound.

**Step 3** Turn dials to set your own combination.

**Step 4** Push the Buttons to pop out the Reset Button to original position.

The lock will now open to your personal combination.

Record your combination in a safe and accessible place for future reference.

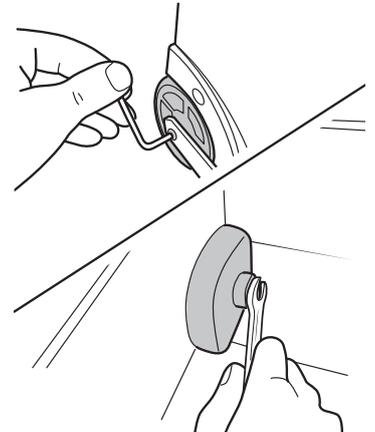

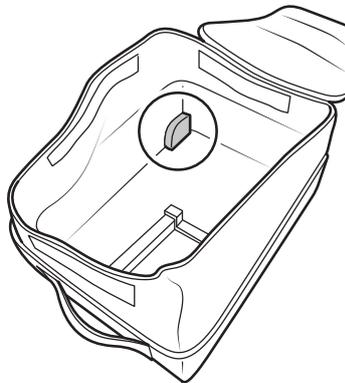

**TSA LOCK™**

NOTE: The Transportation Security Administration (TSA) screeners and airline check-in staff at airports are trained to recognize the *Travel Sentry®* They understand that baggage with locks displaying this mark are permitted to remain locked.

*Travel Sentry®* Approved lock allows your luggage to be unlocked and inspected by security authorities without damage.
