

## Combination Pedestal

The Miller Combination Pedestal is a lightweight mobile camera support option. The adjustable air-column system provides quick and easy height adjustment for payload configurations up to 30 kg. You can readily adjust the camera to a suitable height and then lock off with the quick action clamp.

The Combination Pedestal has a 100mm bowl to suit a Miller Arrow fluid head. The Combination Pedestal systems are also supplied with the #481 Miller Studio Dolly with cable guards and provide an ultra-smooth rolling action.

### Optional Accessories

300mm Column Extension Tube (CB.VPS-300)
