

Holdit

Professional Variable Arm System

NOGA
SIMPLY SOPHISTICATED

Introduction

If your business is in the image capturing trade whether for the movie industry or the still life commercial field, getting it right involves reliable trusted equipment.

HOLDIT meets these demands.

A flexible double articulated arm that can be positioned to any angle, then locked, can help you in those moments when a bracket fails and a strip of sticky tape just won't do. The 3 jointed arm was designed by Noga Engineering for a variety of high precision industrial applications. Noga then modified the arm to suit a wide range of cameras and it has now become an essential accessory for the professional photographer. The heart of the device is its single central locking knob that simultaneously locks all 3 joints.

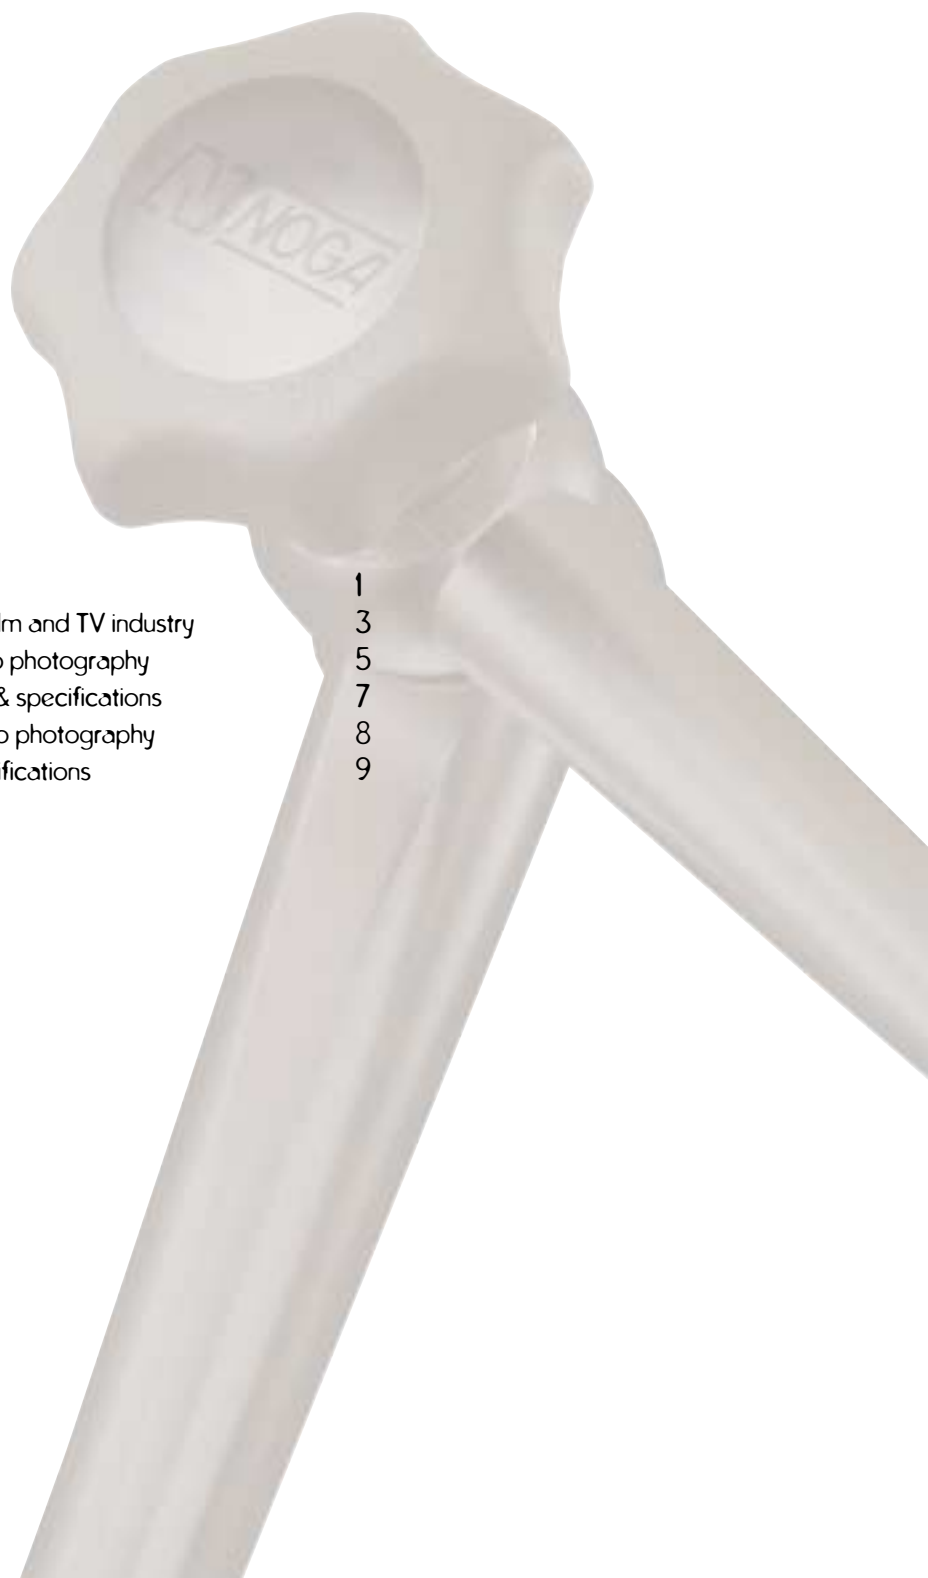

So the next time you find yourself in one of those unmanageable moments, HOLDIT will help you do the job.

Those who have used it once never work without it again.

Contents:

Introduction		1
Monitor Cinematography	for the film and TV industry	3
Lighting Heads	for video photography	5

Monitor Cinematography

A flexible arm that can hold a monitor mounted onto your cine camera. Raise or lower, tilt up or down, swing the screen to get the angle you require. The monitor can be turned to any angle to provide you with the clearest view.

To order complete sets see page 10

Holdit

MG11043

Lighting Heads

This versatile flexible arm is a “must” for any serious video cameraman. It mounts easily onto the camera and is quick and simple to use.

DG1105

Holdit

Support your light, move it left or right of the lens. Raise or lower, tilt up or down. Master your shadow, be in control like never before. Prevent burning your microphone windscreen. Soften your light, get rid of the hard shadow, bounce the light off a reflector held by the HOLDIT clamp.

To order complete sets see page 10

Use the clamp to shade your lens.

Range of Accessories

Our extensive range of accessories makes HOLDIT a versatile tool. With the many CLAMPS, MAGNETS & ARMS options, you can customise HOLDIT for your SPECIFIC NEEDS.
