

The LITE range of teleprompters is designed to minimize on-camera weight and cost for customers with the most basic prompting requirements - simply choose from our 17", 10" or iPad packages and start prompting.

## What's the difference between the Starter Series and the Starter Series LITE?

The Starter Series and the Starter Series LITE use exactly the same monitors, hoods and broadcast quality glass. The differences lie in the mounting hardware and brackets that connect it all together, and determine the flexibility of how you can use your teleprompter with your specific camera/ lens:

- The LITE range cannot be used with ENG cameras.
- The height of the hood and the camera is fixed.
- The LITE 17" does not come pre-assembled and does not flat pack, or pack in to a case.
- The LITE range cannot be re-configured in to a straight-read prompter or floor-standing prompter.

## I've seen some other low cost teleprompters - why should I buy from you?

Our prices are set at or below the level of our competitors for every equivalent product. Beyond price, we offer you the best available product, service and support, at that price point:

- We have 55+ years' experience in the teleprompting industry giving us an unbeatable understanding of the technology and your requirements.
- We provide our full Starter Series PC and Mac software at no extra cost.
- You will get our wide angle hoods and broadcast quality glass as standard, allowing you to use wide angle camera lenses without getting the prompter in shot, or needing to pay extra for a hood that will work with your camera and lens.
- Our 10" and iPad units are pre-assembled for instant installation and easy transportation.
- We include worldwide warranties and support - 3 years on metalwork, 1 year on monitors and unlimited software support - we've been around for over 55 years and we'll still be here next year if anything goes wrong or if you need our help.

We pride ourselves of offering all our customers the best available solution on the market at the best possible price - whatever your budget or requirements.
